## Introduction

This book is compiled on the basis of "The Commodity Classification for Foreign Trade Statistics" (Ministry of Finance Notification No. 344, 1961).

In the schedule of exported commodities, the "Remark" column indicates the applicable item numbers (effective on January 1st of 1970) in the first column of the list II annexed to item 2 of Paragraph 1 of Article 52 (Duty refund on raw materials for manufacture of export goods) of the Cabinet Order for Customs Traiff Law for your reference. The item number marked with asterisk (\*) indicates that the goods in the item number are in part of the goods in the corresponding code No.

In the schedule of imported commodities, for comparison of the statistical classification for the imported commodities with the customs tariff classification, the "Remark" column shows the applicable customs traiff No. (effective on January 1st of 1970) for your information. But, it should be added in this connection that the commodity may be classified under the particular code No., only if a customs tariff No. applicable to that commodity is ascertained to come under the customs tariff No. appeared in the Remark column.

The interpretation as to the commodity classification listed in this book shall be, in principle, based upon the interpretation of the Customs Tariff.
