

✚ Brief description of goods

Jewelry box with a base of molded plastic. The outer surface is flock finished with textile and inner side is lined with rayon fabric using paper board cores.

✚ Classification

4202.92-000

✚ Reason for classification

The Explanatory Note to heading 42.02 prescribes that “the term "jewelry boxes" covers not only boxes specially designed for keeping jewelry, but also similar lidded containers of various dimensions ... normally lined with textile material, of the type in which articles of jewelry are presented and sold and which are suitable for long-term use.”

The jewelry box described above is suitable for prolonged use according to the materials of the substrate and finishing process. Therefore, it is classified in heading 04.02 as jewelry box.

**Note:**

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
