

**✿ Components for aluminum sash (1) (Set of components of the dimensions for widow frame)**

**Heading 76.10**

**✚ Brief description of goods**

A set of aluminum profiles of various shapes of cross section and lengths, composing a window frame. When they are assembled with screws, a window frame (aluminum sash) is completed.

**✚ Classification**

7610.10-000

**✚ Reason for classification**

Although these aluminum profiles are not finished as a window frame, they have been processed to various shapes and lengths so that they can be assembled as a window frame by means of screws. Thus, it is considered that they have the essential character of the finished window frame. Therefore, they are classified as stated above by application of GIR 2 (a).

**Note:**

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
