

✚ Brief description of goods

Pot-type water purifier of a plastic transparent container incorporated with a water purification cartridge. The water poured from the top purified by removing free residual chlorine, total trihalomethane, soluble lead, mold odor and agricultural chemicals through filtering materials (activated carbon and ion exchanger).

✚ Classification

8421.21-000

✚ Reason for classification

It is classified as the filtering or purifying apparatus for liquids in heading 84.21.

**Note:**

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
