The Government of Japan and the Government of Australia (hereinafter referred to as "the Parties"),

In accordance with Article 1.12 (General Provisions - Implementing Agreement) of the Agreement between Japan and Australia for an Economic Partnership (hereinafter referred to as "the Basic Agreement"),

HAVE AGREED as follows:

CHAPTER 1
GENERAL PROVISIONS

Article 1.1
Scope and Relationship to the Basic Agreement

1. This Agreement sets out the details and procedures for the implementation of certain provisions of the Basic Agreement.
2. Unless otherwise provided for in this Agreement, the definitions set out in the Basic Agreement shall apply to this Agreement, *mutatis mutandis*.
3. Chapter 19 (Dispute Settlement) of the Basic Agreement shall apply *mutatis mutandis* with respect to the settlement of disputes between the Parties concerning the implementation, interpretation or application of this Agreement.

CHAPTER 2
RULES OF ORIGIN

Article 2.1
Issuance of Certificate of Origin

1. Signatures of the representatives of the authorised body of the exporting Party or its other certification bodies on a Certificate of Origin shall be autographed or electronically printed. Stamps or official seals of the authorised body or other certification bodies may be printed electronically as well.
2. In principle, a Certificate of Origin shall be issued by the time of shipment.

3. In exceptional cases where the Certificate of Origin has not been issued by the time of shipment, on request of the exporter or producer, the Certificate of Origin may be issued retrospectively in accordance with the domestic laws and regulations of the exporting Party within 12 months from the date of shipment, in which case it shall be necessary to indicate "ISSUED RETROSPECTIVELY" in the relevant field of the Certificate of Origin. The Certificate of Origin issued retrospectively shall indicate the date of shipment in the relevant field of the Certificate of Origin.

4. A Certificate of Origin issued retrospectively shall remain valid for one year from the date of shipment.

5. In the event of theft, loss or destruction of an issued Certificate of Origin before the expiration of its validity, the exporter, the producer or their authorised representative may request the authorised body of the exporting Party or its other certification bodies to issue a new Certificate of Origin as a duplicate of the original Certificate of Origin on the basis of the documents in their possession. The Certificate of Origin issued in this way shall bear the word "DUPLICATE OF THE ORIGINAL CERTIFICATE OF ORIGIN NUMBER_DATED_" in the relevant field of the Certificate of Origin. The date of issuance of the original Certificate of Origin shall be indicated in the new Certificate of Origin. The new Certificate of Origin shall be valid during the term of the validity of the original Certificate of Origin.

Article 2.2 Modification

1. In case a Documentary Evidence of Origin contains incorrect information:

- (a) the exporter, producer or their authorised representative may request the issuance of a new Certificate of Origin and the invalidation of the original Certificate of Origin; or
- (b) the importer, exporter, or producer may complete a new origin certification document and withdraw the original origin certification document.

2. Notwithstanding paragraph 1(a), the authorised body of the exporting Party or its other certification bodies may, in response to the request for the issuance of a new Certificate of Origin or at their own initiative, make modifications to the Certificate of Origin by striking out errors and making any additions required. Such modifications shall be certified by the authorised signature and stamp or official seal of the authorised body of the exporting Party or its other certification bodies.

3. Erasures, superimpositions and modifications other than those referred to in paragraph 2 shall not be allowed on the issued Certificate of Origin.

Article 2.3

For the purposes of subparagraph (a) of Article 3.8 (Rules of Origin - Consignment) of the Basic Agreement, in case a good undergoes repacking, relabeling or splitting up, an importer shall provide, on request of the customs administration of the importing Party, a Documentary Evidence of Origin which is consistent with the state of consignment after such operations.

Article 2.5

Minor Errors

The customs administration of the importing Party shall disregard minor errors, such as slight discrepancies or omissions, typing errors or protrusions from the designated field, provided that these minor errors are not such as to create doubts concerning the accuracy of the information included in the Documentary Evidence of Origin.

Article 2.6
Communications on Origin Verification

1. For the purposes of Articles 3.21 (Rules of Origin - Origin Verification) and 3.22 (Rules of Origin - Verification Visit) of the Basic Agreement, communication between the customs administration of the importing Party and the exporters, the producers, the authorised body or the customs administration of the exporting Party shall be made through diplomatic channels unless otherwise agreed by the Parties.

2. 3. Notwithstanding paragraphs 1 and 2, the customs administration of Australia may access the EPA CO Reference System provided by the Ministry of Economy, Trade and Industry of Japan for the purposes of verifying the authenticity of Certificates of Origin issued in Japan.

4. Information provided by the customs administration of a Party to the customs administration of the other Party pursuant to this Chapter shall not be used by the other Party in criminal proceedings carried out by a court or a judge, unless the other Party has obtained prior written consent of the customs administration which provided the information.
