

ORIGIN ADMINISTRATION CENTER  
JAPAN CUSTOMS  
**REQUEST FOR INFORMATION ON THE ORIGIN OF GOODS**

---

**SECTION 1**

**PRODUCTION PROCESS**

---

Provide a description of the production process for the good/material subject to this request.

--

**SECTION 2**

**NON-ORIGINATING/UNKNOWN MATERIALS OR COMPONENTS**

---

Provide the following information for each non-originating material or component used in the production of the good subject to this request. The materials or components of unknown origin shall be regarded as non-originating and thus shall also be stated. If none of non-originating/unknown materials/components were used, state "NONE".

Description of the Material or Component	HS Code, if known

---

**SECTION 3****ORIGINATING MATERIALS OR COMPONENTS**

---

Provide the following information for each originating material or component used in the production of the good subject to this request. If none of originating materials/components were used, state "NONE".

Description of the Material or Component	Basis of Originating Status : Explanation of how the material or component satisfies the applicable rules to be regarded as an originating material or component	Name and Address of the Supplier or Name and Address of the Manufacturer, if not self-produced

**\*Basis of Originating Status:**

Describe the type of information (i.e. certification of origin, affidavit, declaration, etc.) which was relied upon to determine the originating status of the material or component.

---

**SECTION 4****ADDITIONAL QUESTIONS**

---

1. Is the de minimis provision used to determine whether the good subject to this request qualifies as an originating good?	<input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe the materials concerned:
2. Is the accumulation provision used to determine whether the good subject to this request qualifies as an originating good?	<input type="checkbox"/> Yes <input type="checkbox"/> No If yes, describe the materials concerned:

<p>3. If any other origin criteria, such as indirect materials, packing materials, etc. are used in ascertaining whether the good subject to this request qualifies as an originating good, identify the criteria used and name the materials concerned.</p>	<p><input type="checkbox"/> Yes    <input type="checkbox"/> No  If yes, provide the criteria used:   (and) describe the materials concerned:</p>
<p>4. If RVC (Regional Value Content) /QVC (Qualifying Value Content) rule is used in ascertaining whether the good subject to this request qualifies as an originating good, show the calculated qualifying percentage for RVC/QVC.</p>	<p><input type="checkbox"/> Yes    <input type="checkbox"/> No  If yes, show the percentage:   %</p>
<p>5. If a specific manufacturing or processing rule is used in ascertaining whether the good subject to this request qualifies as an originating good, identify the rule (e.g. chemical reaction or purification rule).</p>	<p><input type="checkbox"/> Yes    <input type="checkbox"/> No  If yes, provide the rule applied:</p>

---

## SECTION 5

## SUPPORTING DOCUMENTS

---

If applicable, please provide the information and supporting documents indicated below.

1. If a change in tariff classification rule is applied to determine whether the good subject to this request qualifies as an originating good, provide supporting documents which include HS number of the non-originating materials or components used in the production of the good.
2. If RVC/QVC rule is applied to determine whether the good subject to this request qualifies as an originating good, provide supporting documents which include the value of the good and the materials or components used in the production of the good (i.e. the value of the good/materials/components needed for the calculation according to the applicable rule).
3. If the applicable rules of origin contain specific requirements other than a change in tariff classification rule or RVC/QVC rule, provide supporting documents to demonstrate the compliance with such requirements.
4. If any other origin criteria such as WO (Wholly Obtained products), accumulation provision, de minimis provision, etc. are used to determine whether the good subject to this request qualifies as an originating good, provide supporting documents to demonstrate the compliance with such criteria.

---

**SECTION 6****CERTIFICATION**

---

I certify that the information on this document is true and accurate.
