

## **Japan Customs Analysis Methods**

**No. 308**

### **Crude Petroleum & Petroleum Products - Determination of Distillation Characteristics**

**(Issued in June 1999)**

**(Updated in January 2002)**

#### **1. Scope**

This analysis method is applied to petroleum spirits, kerosenes, gas oils and heavy fuel oils listed in the heading 27.10 of Customs Tariff Law (Appendix Table - Customs Tariff Schedule) which require the determination of distillation characteristics.

#### **2. Procedure**

Refer to the “atmospheric distillation” part of JIS K 2254: 1998 (ISO3405:1988, MOD<sup>\*)</sup>).
