

Japan Customs Analysis Methods

No. 313

Crude Petroleum & Petroleum Products - Reduced Pressure Distillation

(Issued in June 1999)

1. Scope

This analysis method is applied to “petroleum oils and oils obtained from bituminous minerals” listed in Chapter 27 of Customs Tariff Law (Appendix Table - Customs Tariff Schedule) which require reduced pressure distillation tests.

2. Procedure

Refer to ASTM D1160-13.
