

✚ **Brief description of goods**

Sand manufactured by mixing bentonite, zeolite and colored zeolite. It is intended to be used for the treatment of urine of cats.

Major component:	Natural bentonite	95%
	Natural zeolite	4.95%
	Colored zeolite	0.05%

✚ **Classification**

3824.90-999

✚ **Reason for classification**

The sand is a mixture of two kinds of minerals and colored zeolite and is not classified in Chapter 25 according to the provisions of Note 1 to Chapter 25.

Therefore, it is classified as stated above as chemical products and other preparations that is not applicable to other headings.

Note:

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
