

✚ **Brief description of goods**

Saddlebag consisting of two bags with a bridging section with zip fasteners. It is used by laterally spreading it on the rear seat of a motorcycle and fixing a bridging section between the seat and rear fender.

Size: 430 mm (W) x 270 mm (H) x 160 mm (D)

Material: textile and synthetic leather

Application: Storage and packing of personal belongings during touring

✚ **Classification**

4202.92-000

✚ **Reason for classification**

Parts and accessories of motorcycles are prescribed in heading 87.14. Since the saddlebag can be removed from the motorcycle easily and be used in a similar way as a travelling bag, it is not considered that it is solely or mainly used for motorcycles and is not classified in heading 87.14 according to the provisions of Note 3 to Section 17. Therefore, it is classified as stated above as a traveling bag whose outer surface is made of plastic or textile and similar containers in heading 42.02.

Note:

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
