

✚ Brief description of goods

Printed globe held stably in the air with a magnetic force.

✚ Classification

4905.10-000

✚ Reason for classification

The Explanatory Note to heading 49.05 states, “This heading also covers printed globes and celestial globes with internal lighting, provided they are not merely toys.” Thus, a printed globe corresponds to heading 49.05 even if it has special features.

Therefore, the printed globe described above is classified in heading 49.05.

**Note:**

The nature of the goods to be the basis for customs duty assessment depends on the conditions at the time of the import declaration of the goods with some specific exceptions (Article 4 of the Customs Law).

This classification example describes general replies based on the certain condition and do not necessarily represent all cases. Therefore, the classification decision on your actual importation may be different from that described here according to its condition.

If you wish to have a reply about the tariff classification and duty rate of specific goods that will be respected at the examination of import declaration, please ask Customs for Advance Ruling in writing.
