

## Cases of inappropriate filing of cargo information in AFR

There are some cases that cargo information with inappropriate descriptions, which might be obstacles for Japan Customs to conduct appropriate risk analysis, is inputted with regard to the Advance Filing Rules (AFR) on Maritime Container Cargo Information which have been operated since 1 March 2014.

- Any filers (Shipping companies/NVOCCs) are required to file appropriate and detailed descriptions in order for Japan Customs to conduct appropriate risk analysis of filed cargo information.
- Shipping companies and NVOCCs are required to file appropriate cargo descriptions cooperatively, providing necessary information (Vessel Information, Master B/L Number, presence or absence of House B/L, etc.) for each other's filing so that there is no discrepancy information.

Japan Customs may send an advance notice of HLD for requesting appropriate information and conduct a necessary investigation of a false filing, when we confirm an inappropriate filing hereafter.

Please make sure to file the cargo information appropriately.  
For your reference, examples of inappropriate filing are provided as follows:

## Cases of inappropriate filing of cargo information in AFR

### 1. “Consignor”, “Consignee”, and “Notify Party”

Cases that the cargo information has been filed with inappropriate descriptions in the fields of “Consignor”, “Consignee”, and “Notify Party”. Please make sure to file the cargo information appropriately.

### 3. Vessel Code

Cases that inappropriate descriptions are inputted in the field of “Vessel Code”.

Due to the discrepancy of the Vessel Code filed by shipping company and by NVOCC, filers may receive discrepancy information.

Please pay attention to the following points.

- Please input the Call Sign instead of the IMO number or Vessel Name in the Vessel Code field.

For your reference, you can check the Vessel Code registered in NACCS at:

<http://www.naccscenter.com/system/code/scac-code.html>

- When a Vessel Code is not registered in NACCS, it is necessary to input “Laden Vessel Name” and “Nationality Code of Vessel” in addition to the Vessel Code. In this case, please file the correct Vessel Code instead of “ZZZZZ” in the Vessel Code field.

(Updated: October, 2014)

### 4. Port of Loading Code

Cases that a “ZZZ” is inputted after the 2 digit country code, while the correct Code is officially registered in NACCS. Due to the discrepancy of the Port of Loading Code filed by shipping company and by NVOCC, filers may receive discrepancy information.

Please pay attention to the following point.

- Regarding the Port of Loading Code (\*1), please input correctly the UN LOCODE (5 digits) (\*2) of the port where the cargo is loaded onto the vessel, which is supposed to enter Japan directly.

(\*1) In filing the information of transshipment cargoes, the first port (in most cases, the exporting port) from which the cargo starts is considered to be the “Port of Origin”, and the transshipment port the “Port of Loading”.

(\*2) For your reference, you can check the Port of Loading Code registered in NACCS at:

<http://www.naccscenter.com/afr/code.html>

(Added: October, 2014)

Port of Loading	Description	Correct Port of Loading Code
TIANJINXINGANG	CNZZZ	CNTXG
CHIWAN	CNZZZ	CNCWN
SHEKOU	CNZZZ	CNSHK
SHENZHEN	CNZZZ	CNSZX
NINGBO	CNZZZ	CNNGB
KEELUNG	TWZZZ	TWKEL
LAEM CHABANG	THZZZ	THLCH
PORT KELANG	MYZZZ	MYPKG

## Cases of inappropriate filing of cargo information in AFR

Moreover, there are cases that incorrect port of loading code is inputted since the port is located near to the actual loading port. For example, TIANJIN (CNTSN) is inputted in error instead of TIANJINXINGANG (CNTXG).

Please refer to the following list and input the port of loading code correctly.

Case of inappropriate filing of the port of loading code because of using nearby port code

Country	Port Name	Code	Nearby Port	Code
China	TIANJINXINGANG	CNTXG	TIANJIN	CNTSN
United States	LOS ANGELES - CA	USLAX	LONG BEACH - CA	USLGB
Vietnam	HO CHI MINH CITY	VNSGN	CAT LAI	VNCLI
Philippine	MANILA	PHMNL	MANILA NORTH HARBOR	PHMNN

### 5. Port of Discharge Code

Cases that the incorrect code of the port is inputted since the name of the port is similar to the actual discharge port, or the port is located near to the actual discharge port.

Please pay attention to the following point.

- Regarding the Port of Discharge Code (\*1), please input correctly the UN LOCODE (5 digits) (\*2).

(\*1) In case the port of discharge is different from the importing port, please input the port of discharge code. (For example, when the cargo is discharged from a foreign trading vessel at Tokyo port (JPTYO) and the cargo is carried to Ogasawara (JPOGA) port for importation by a domestic vessel, the filer has to input “JPTYO”.

(\*2) For your reference, you can check the Port of Discharge Code registered in NACCS at:

### 6 . Port of Loading Suffix

Cases that the number “1” - “9” is inputted in the Port of Loading Suffix even though the vessel did not enter the same port more than one time in one voyage.

Due to the discrepancy of the Port of Loading Suffix filed by shipping company and by NVOCC, filers may receive discrepancy information.

Please pay attention to following points.

- At the second entry to the same port in one voyage, input “1”. And at the third entry, “2”.
- Be careful not to enter a Branch Number which does not match the number of port calls.

### 7 . Port of Discharge Suffix

Cases that the number “1” - “9” is inputted in the Port of Discharge Suffix even though the vessel did not enter the same port more than one time in one voyage.

Please pay attention to following points.

- At the second entry to the same port in one voyage, input “1”. And at the third entry, “2”.
- Be careful not to enter a Branch Number which does not match the number of port calls.

### 8. Description of Goods

Cases that inappropriate descriptions are inputted in the field of “Goods Description”.

Please pay attention to following points.

- Concrete and detailed description (general terms or trade names) is needed to easily identify the contents of the cargo. In addition, in case that several goods are loaded in a container, not only the description of the main goods but also of the other goods need to be filed in the “Description of Goods” field within 350 digits to a maximum extent.
