

Product	Fish	HS code	HS 03.03 (HS2012)
EPA/GSP	CPTPP	Origin Criteria (as indicated on Proof of Origin)	PSR (The good satisfies product specific rules)
Product Specific Rules	CC		
Outline	After checking all the materials and the manufacturing process, it was found out that the process taken in a party of the CPTPP was only center-cutting in which fish that are classified in Chapter 3 are used as non-originating material from a third country that is not a party of the CPTPP; thus, the non-originating material does not satisfy the product specific rules of HS 03.03, which is CC. Therefore, the product is not considered an originating good of parties under the CPTPP.		

### Requirements to satisfy PSR

Materials of Chapter 3 (fish) are required to be originating material.
