

Product	Cocoa powder	HS code	HS 18.05 (HS2002*) *HS2017 from February/2024
EPA/GSP	Japan-Indonesia EPA	Origin Criteria (as indicated on Proof of Origin)	B (The good is produced entirely in the Party exclusively from originating materials of the Party)
Product Specific Rules	A change to heading 18.01 through 18.06 from any other chapter.		
Outline	After checking all the materials, it was found that cocoa beans (HS 18.01) that were harvested in a third country were used. The non-originating materials that were classified in HS 18.01 were not changed from materials of other chapters; thus, they do not satisfy the product specific rules of HS 18.05. Furthermore, the De Minimis is not applied to the products of Chapter 18. Therefore, the products are not considered originating goods of Indonesia under the Japan-Indonesia EPA.		

Requirements to satisfy PSR

Materials of Chapter 18 are required to be originating materials.

Note: The PSR of HS 18.05 does not stipulate to use materials of member countries of ASEAN; thus, the materials of HS 18.01 do not satisfy the PSR even if a third country in which the cocoa beans were harvested is a member country of ASEAN.

Requirements to apply De Minimis

This rule applies to the products classified **from Chapter 28 to Chapter 97**; thus it does not apply to Chapter 18.
