

Product	Pineapple juice	HS code	HS 2009.41 (HS2017)
EPA/GSP	Japan-EU EPA	Origin Criteria (as indicated on Proof of Origin)	C1 (The good satisfies a change in Tariff Classification rule)
Product Specific Rules	CTH, provided that pineapples, oranges, tomatoes, apples, and grapes used are wholly obtained.		
Outline	After checking all the materials, it was found that pineapples that were classified in HS 08.04 and harvested in a third country outside the EU were used. The non-originating materials, the pineapples, satisfy the “CTH” rule, but do not satisfy other conditions in the product specific rules of HS 2009.41; thus, the good does not satisfy the product specific rules. Therefore, the product is not considered an originating good of the EU under Japan-EU EPA.		

### Requirements to satisfy PSR

Pineapples are required to be wholly obtained in the EU.
