

Product	Mixtures of juices	HS code	HS 2009.90 (HS2002) *HS2017 from January 2022
EPA/GSP	Japan-Thailand EPA	Origin Criteria (as indicated on Proof of Origin)	PS (The good satisfies the product specific rules set out in Annex 2)
Product Specific Rules	A change to subheading 2009.90 from any other chapter, except from Chapters 7 or 8.		
Outline	After checking all the materials, it was found that originating materials and non-originating materials of juices that were classified in Chapter 20 were mixed in the manufacturing process of the product. The non-originating materials that were classified in Chapter 20 were not changed from materials of other chapters; thus, the good does not satisfy the product specific rules of HS 2009.90. Besides, the value of the non-originating materials consists of more than 7% of the value of the product; thus the De Minimis is not applied to the product. Therefore, the product is not considered an originating good of Thailand under the Japan-Thailand EPA.		

Requirements to satisfy PSR

Materials that are classified in HS Chapter 20, 7, or 8 are required to be originating materials.

Requirements to apply De Minimis

The totality of the non-originating materials, that do not satisfy product specific rules, does not exceed specific thresholds.
