Outline	After checking all the materials, it was found that the floor coverings were manufactured from yarn that was a non-originating material. The products manufactured from yarn that was a non-originating material did not satisfy the rules determined in the Ordinance for Enforcement of Temporary Tariff Measures Law. Furthermore, the totality of the weight of the non-originating materials, yarn, exceeded 10% of the weight of the product; thus "De Minimis" cannot be applied to the product. Therefore, the product is not considered an originating good of the partner country under the GSP.
