

Product	Articles of apparel, not knitted or crocheted	HS code	HS 62.11 (HS2002*) *HS2017 from March 2023
EPA/GSP	Japan-ASEAN EPA (from Viet Nam)	Origin Criteria (as indicated on Proof of Origin)	CTC (The good satisfies a change in Tariff Classification rule)
Product Specific Rules	CC, provided that, where non-originating materials of heading <u>50.07, 51.11 through 51.13, 52.08 through 52.12, 53.09 through 53.11, 54.07 through 54.08, 55.12 through 55.16, or Chapter 60</u> are used, each of the non-originating materials is woven entirely in one or more of the Parties. *CC: a change in tariff classification at the 2-digit level (i.e. a change in chapter) of HS *HS codes with underscore indicate fabrics.		
Outline	After checking all the materials, it was found that fabrics classified in HS 52.08 that were non-originating materials were used. The fabrics did not satisfy the product specific rules of HS 62.11, because the fabrics were not woven entirely in one or more of the Parties. Furthermore, the totality of the weight of the non-originating materials, the fabrics, exceeded 10% of the weight of the product; thus Article 28, "De Minimis", cannot be applied to the product. Therefore, the product is not considered an originating good of Viet Nam under the Japan-ASEAN EPA.		

Requirements to satisfy PSR

The non-originating materials, fabrics, are required to be **woven entirely in one or more of the Parties of the Japan-ASEAN EPA**.

Requirements to apply De Minimis

The totality of the weight of the non-originating materials does not exceed 10% of the weight of the product.
